FRONT COVER: Tiles: **Dulux Renovation Range Cabinet Doors** in *Dulux Mt Aspiring Half*.

Disclaimers: Colours shown are as close as possible to actual paint colours. Please note, due to limitations of the printing process, photographic and printed images may not represent the true colour. Always confirm your choice with a *Dulux* Sample Pot.

\*For full use instructions please see the *Dulux* website and review the Data Sheet, Application and FAO information. †The *Dulux* Renovation Range Floor product does not require a clear coat as it will reduce the non-slip performance.

Registered trade mark information: Dulux, Worth doing, worth Dulux, PRECISION, Selleys and Spakfilla Rapid are registered trade marks and Natural White is a trade mark of DuluxGroup (Australia) Pty Ltd.

# RENOVATION RANGE

TRANSFORMATION MADE EASY

## CABINET DOORS

EASY HOW-TO PROJECT GUIDE

# CABINET DOORS

Dulux® Renovation Range Cabinet Doors provides the smart way to rejuvenate your kitchen cabinet doors and can be applied to laminate, melamine and wooden doors.

## Shopping List

- ✓ Dulux® Renovation Range Cabinet Doors in your chosen colour
- ✓ Dulux® Renovation Range Clear Coat
- ✓ 38–50mm high quality angled sash cutter brush
- ✓ 4mm nap 100mm wide microfibre roller
- ✓ Paint stirrer and drop sheet
- ✓ Painters tape
- ✓ P400 sanding paper
- ✓ Selley's® Sugar Soap

### EXPERT TIP

When painting over dark colours or timber with white or a light colour, you may require more than 2 coats, so make sure you calculate how much paint you need before you start your project.

## Preparation

*Dulux* Renovation Range Cabinet Doors requires a clean surface to adhere. All grease and dirt contamination **MUST** be removed, or the paint will not adhere and will peel or flake off.

### Previously Painted Surfaces:

On ALL surfaces cleaning is the most important step.

- Scrub down all areas with Selley's® Sugar Soap and rinse with clean water to remove any dirt, oil or grease. Use a plastic scouring pad on heavily contaminated surfaces.
- Repeat this process using clean water, at least twice.

**IMPORTANT:** Do not use abrasive cleaning detergents.

- Mask as required using a good quality painters tape.
- Completely remove any loose and flaking paint. Fill any cracks or holes with a suitable acrylic water based filler such as Selley's® Spakfilla Rapid®.
- Sand glossy and semi gloss finishes to a dull flat finish using p400 paper before coating.
- Use a clean damp cloth to remove any dust.

## Kitchen, Bathroom & Laundry Cabinets

Including laminate and varnished timber. Remove doors for easy coating of edges and door surrounds.

Follow preparation as per Previously Painted Surfaces above.

## Wooden Cabinet Doors & Kick Boards

Follow preparation as per Previously Painted Surfaces above.

If there are any breaks or scratches in the coating, apply *Dulux* PRECISION® Stain, Smoke & Odour Blocker spraypack before topcoat.

## Vinyl and Plastic Wrapped Cabinet Doors & Panels

Follow preparation as per Previously Painted Surfaces above.

Apply *Dulux* Renovation Range Plastic & Laminate Primer before topcoat application.

Clean

Stir well before use

## Application

### Topcoat

1. Cut in as necessary using a 38–50mm high quality angled sash cutter brush and 4mm nap 100mm wide microfibre roller.
2. Coat surface using a 4mm nap 100mm wide microfibre roller.
3. Lay off. Once each section is coated, gently go over the surface in the same direction with an unloaded roller using minimal pressure. This will give a smooth consistent finish.

### Clear Coat

For best finish on cabinet door areas apply *Dulux* Renovation Range Clear Coat as the final coating. This will add a layer of protection to the *Dulux* Renovation Range topcoat.

Sand

Roll on topcoat
